

Melbourne's Water Future

livingvictoria.vic.gov.au

A smarter way
to manage our water

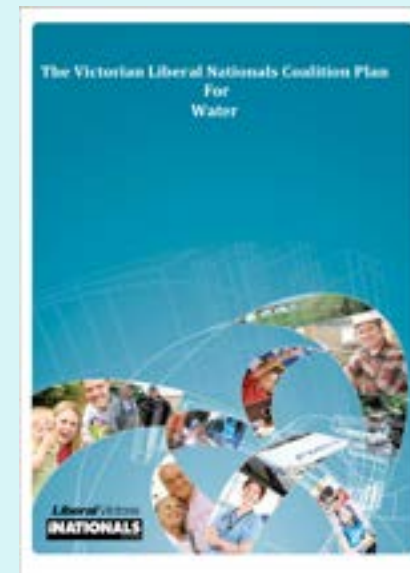

Office of
Living Victoria

The reform journey

Industry activity

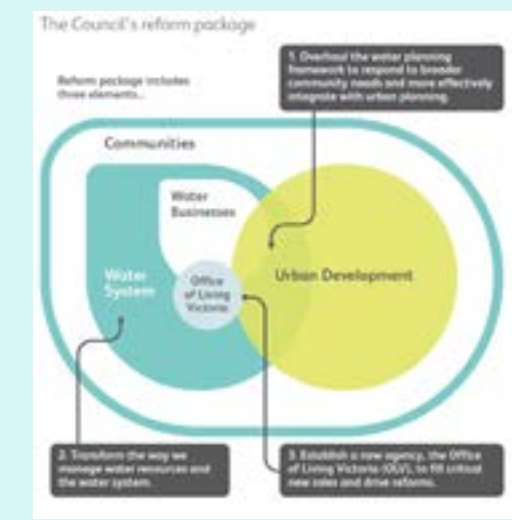

2010

Government water policy

March 2011

Ministerial Advisory Council implementation plan and roadmap

September 2011

Ministerial Advisory Council reform package

April 2012

Government response

December 2012

Office of Living Victoria Business Strategy

Today July 2013
Melbourne's Water Future

Our opportunity

Drinking water
used

Stormwater
available

Wastewater
available

Outcome 1

Engage the community
in whole-of-water-cycle
management

Outcome 2

Design our old and
new suburbs with
water in mind

Outcome 3

Encourage sensible use
of water in our homes
and businesses

Outcome 4

Build resilient water systems that work well during flood and drought

Outcome 5

Improve the health
of natural waterways

Outcome 6

**Reduce inefficiency
and waste**

Outcome 7

Accelerate water
innovation and world
recognition of expertise

The screenshot shows the homepage of the Living Victoria website. At the top right is the logo for the Office of Living Victoria, Victoria. Below the logo is a navigation bar with links for Living Victoria Fund, Melbourne's Water Future, and Living Regions. A search bar is located on the right side of the navigation bar. The main content area features a large banner with the text "62,000,000 litres" and "Flushing our drinking water... is stupid." Below the banner is a "Have your say" button. To the right of the banner is a sidebar with a search bar and a list of links: Living Victoria policy, Office of Living Victoria, Office of the Chief Scientist, Water cycle planning, About water, Latest news, FAQs, Case studies, Media releases, Resources, Contact, and Share. At the bottom of the page, there are three featured articles: "Melbourne's Water Future", "Living Ballarat", and a "Subscribe" button with the text "Receive email updates on Living Victoria and innovations in water".
