

MAINTAINING YOUR PROFESSIONAL RELEVANCE IN THE DIGITAL EVOLUTION

MASTERCLASS

Join the ISV young surveyors and diversity committee together with our supporting partner RMIT for an evening of networking and learning as we present the topic **“Maintaining your professional relevance in the digital evolution”**. Come along to gain insights into emerging technology and how the digital world will affect the surveying profession. Social media platforms, 3D modelling, BIM and digital twins will be discussed as you share experiences and broaden your network.

THE SPEAKERS

CARMEN SEDERINO
CEO, *The Illuminated Story*

Carmen Sederino is a business and marketing professional, with over two decades of experience across a corporate global enterprise. Carmen is passionate about working with professionals and executives to ensure their message is heard and felt. Carmen will present on how face to face networking ties into various social media platforms.

LUKE KASPERCZYK
Cadastral Survey Manager, *Taylor's*

Luke Kasperczyk coordinates the Taylor's cadastral field teams, working in with project managers and Licensed Surveyors to ensure field work is completed professionally and on time/budget. Luke is also in a professional training agreement (PTA) with the Surveyors Registration Board of Victoria working towards achieving his licence. Luke will discuss emerging technology and its impact on the surveying profession. Co-presenting with Luke will be Alvin Tian, Project Surveyor.

REZA JADIDI MISVic
Director, *Moonland Group*

Reza is a business development professional focused on engineering surveying, cadastral surveying and high-rise surveying. Reza will share his experiences on the lessons learnt in building his network and presence in the industry and profession in order to be successful in the emerging digital world.
